

Note: A more complete index is available on the World Wide Web at <http://www.ars.usda.gov/is/AR/archive/key.htm>

A

Abalone, tenderized by papain, Feb-19
Aflatoxin, natural inhibitors of, Jul-17
AgNIC, global ag info source, Nov-23
Agroforestry, for small farms, Nov-15
Alfalfa, transgenic, for new products, Apr-25
Allergies, aroused by roaches, Jun-4
Alum, adding to poultry litter, Jun-12
Ants, fire and pharaoh, Jul-20
Avian leukosis, new viral strain, Aug-24

B

Bacterial leaf scorch, fighting, Jun-27
Barley yellow dwarf virus, Jun-24
Barley, wheat genes for, Nov-4
Bees
 anti-mite gel licensed, Nov-23
 chalkbrood's causes, cures, Aug-16
 cranberry-pollinating, Sep-16
 formic acid gel kills mites, Feb-19
 managing the business, Jan-23
 mustached mud bee, Sep-16
 pollens vary in protein, Oct-23
 Russian, resist mites, May-23
 venom sacs in *Apis cerana*, Nov-21
Berries, blackberries ship well, Apr-26
Berries, new blackberries, blueberries, strawberries, Jan-21
Biocontrol against
 Asian longhorn beetle, Feb-18
 bee mites, with gel, Feb-19
 beet armyworms, with nuclear polyhedrosis virus, Jan-17
 Cercospora fungi, Aug-10
 cotton aphids, with *Lysiphlebia japonica* wasp, Feb-19
 deer ticks, Mar-22
 fire blight, with *Pseudomonas fluorescens*, Jan-14
 Formosan subterranean termites, Oct-4
 fresh-cut produce microbes, with methyl jasmonate, Feb-12
 Fusarium in cotton, Jun-23
Biocontrol with
 baculovirus, against earworms, Mar-25
 Biosteres arisanus wasps, Jul-8
 borer-resistant sugarcane, Aug-7
 Bugslinger and Mite Meter, Aug-12
 compressed hay bales, Mar-21
 deleterious rhizobacteria, Oct-14
 diatomaceous earth, Jul-22
 fungus curbs green mold, Mar-27
 microencapsulated biopesticides, Jun-20
 noninsecticidal ant repellents, Jul-20
 oils, spice against *Eimeria*, Mar-27
 particle films, Nov-16
 red dye and cucurbitacin, May-11
 red dye kills fruit flies, May-23
 Saccharomyces boulardii yeast, Dec-18
 spiders, Aug-4
 sugar esters, Jul-14
 synthetic insect chemicals, May-15
 Trichoderma and relatives, Jul-10
Biofilms stick to stainless steel, Feb-10
Bioimpedance estimates water-weight gains, Sep-23

Biosensor tests soil and water, Nov-14
Biotechnology Research and Development Corp, Mar-4
Biotechnology, test for cotton pests, Jun-16
Bluetongue, midge spreads, Mar-26

C-D

Camellia, Lu Shan Snow, Oct-21
Campylobacter, tracking source, Feb-19
Campylobacter, yeast may inhibit, Dec-18
Cancer, colon, noninvasive screening, Oct-23
Castration, minimizing stress of, Aug-15
Cattle
 bull evaluation, INTERBULL, Feb-16
 dogs host *Neospora* parasite, Dec-21
 management with DECI, May-16
 pasture-finishing, Jun-11
 PCR test for tuberculosis, Sep-17
 timing calf castration, Aug-15
Cattle, dairy
 brown stomach worm cuts milk, Jan-10
 coupled antibodies resist mastitis, Jun-17
 cytokine wards off mastitis, Sep-22
 high-moisture corn feed, Jul-16
 milk fever gel licensed, Jul-23
 test for Johne's disease, Oct-18
Chlamydia, new tests for, Jun-7
Citrus, fungus fights green mold, Mar-27
Citrus, picker for juicing fruit, Mar-8
Cockroaches, curbing their allergens, Jun-4
Composting fights farm pollutants, May-20
Computer model
 GPFARM decision support system, Nov-22
 helps time fumigation, Jul-21
Conservation tillage helps beneficial microbes, Jan-23
Corn
 apomictic hybrid patented, Dec-10
 -based heavy metal attractants, Jul-23
 low-phytic-acid, May-23
Cotton, ginning improvements, Feb-15
Cotton, test for pests, Jun-16
Cryopreservation of seeds, Sep-12
Crystals, carbon dioxide, Oct-12
Cucumber mosaic virus, test for, Jun-27
Currants, disease-resistant, Dec-19
Cytokine, helps cows fight mastitis, Sep-22
Diesel, improved cold-weather starting, Apr-21

E-F

E. coli, heat-shocking toughens, Jul-21
Erosion, stabilizing streambanks, Aug-27
Fats
 DHA lowers tryglycerides, Sep-18
 health effects of table spreads, Sep-14
 saturated, NIR detects in food, Sep-23
 trans and non-trans, Sep-14
Fire blight, alternative treatments, Jan-14
Folate, women's needs, Mar-14
Food safety
 biofilms on stainless steel, Feb-10
 heat resistance in *E. Coli*, Jul-21
 poultry inspection, automated, May-4
Formic acid, gel-form miticide, Nov-23
Forum
 A National Formosan Subterranean Termite Program, Oct-2

Biocontrol Innovations, Aug-2
Breeding Designer Plants, Nov-2
Celebrating a Century of Plant Exploration, Sep-2
Consumer-Oriented Insect Research, Jun-2
New Ways for an Ancient Science, Jul-2
Research That Goes Beyond the Farm Gate, May-2
Restoring Stream Corridors, Feb-2
Speeding Inventions Along—From Lab to Marketplace, Mar-2
Teaming Up To Examine Planet Earth, Apr-2
There's No Place Like Home, Dec-2
Fabulous Fruit—Without Fumigation, Jan-2
Fractal geometry, in soil research, Apr-10
Fumigation, alternatives to, Jan-2
Fumigation, timing of, Jul-21
Fungi
 source of *cah* marker gene, Jul-12
 systematic taxonomy, Jul-10
 thwarting *Cercospora* genetically, Aug-10

G-H

Gene-mending plant enzymes, Oct-11
Genetic engineering
 cah marker gene, Jul-12
 cfp gene protects fungi from toxins, Aug-10
 cfp gene turns *Cercospora* fungi off, Aug-10
 hspX gene probe for Johne's disease, Oct-18
 peptides into plants, Jun-23
 soybeans, Jan-22
 to control ripening, Feb-12
 to strengthen wheat dough, Nov-4
 ubiquitin7 promoter gene, Jan-12
 vaccine for shipping fever, Dec-20
Germplasm preservation, Sep-4, Sep-12
Germplasm preservation, in situ, Dec-4
Global positioning satellite aids manure application, Jun-16
GPFARM guides farm managers, Nov-22
Grapes, anti-phylloxera efforts, Dec-19
Grapes, rock, rootstock, Dec-4
Grass, TifEagle, for putting greens, May-13
Hay, compressed bales, Mar-21
Hides and leather, tanning update, Nov-12
Hops, domestic Santiam excels, Aug-27
Hot forced air curbs papaya pests, Jan-5
Hydraulic fluid from vegetable oil, Nov-9
Hydrodyne, meat tenderizing technique, Jun-8

I-J-K

Insects
 a simple way to collect, Jul-22
 aping their brain chemicals, May-15
 Asian longhorn beetle, Feb-18
 bee mites, May-23
 bees battle chalkbrood, Aug-16
 beet armyworms, Jan-17
 brown stomach worm in cattle, Jan-10
 corn earworms, Mar-25
 corn rootworms, May-11
 deer ticks, *Ixodes scapularis*, Mar-22
 EGPIC, automated insect counter, Sep-20
 Formosan subterranean termite, Oct-4
 fruit flies, May-23
 Hessian flies, Jan-23, Mar-21
 in stored foods, Jul-21

nematode dupes house flies, Oct-19
 pear psylla, Jul-14
 screwworm, Sep-22
 silverleaf whiteflies, Jul-14
 tobacco budworm, corn earworm, Oct-20
 Integrated pest management
 of leafy spurge, Oct-16
 to control cockroaches, Jun-4
 to control termites, Oct-4
 Irradiation of cattle hides, Nov-12
 Irrigation, computerized TDR system, Jan-7
 John's disease, gene-based test for, Oct-18
 KISS, hand-held insect sampler, Jul-22

L-M-N

Leafy spurge, areawide controls, Oct-16
 Lychees and longans, Jan-8
 Lyme disease, tick vectors, Mar-22
 Manure
 curbing odors in, Oct-22
 laser analyzes animals' diet, Aug-22
 precise application of, Jun-16
 Maples, two new, Apr-27
 Mars studies with CO₂ crystals, Oct-12
 Mass-rearing *Biosteres arisanus* wasps, Jul-8
 Meat
 detecting marbling in live animals, May-19
 shock waves tenderize, Jun-8
 Medicinal plants yield drugs, Apr-18
 Microwaves, to evaluate ripeness, Aug-23
 Milk, nutrients vary among mammals, May-7
 Millet, foxtail, in crop rotations, Jan-22
 Mulch, colored pine needle straw, Sep-23
 National Plant Germplasm System, Sep-2, 4
 Near infrared reflectance (NIR)
 to destroy insect pests, May-14
 to detect saturated fat, Sep-23
 to evaluate rice quality, Aug-18
 New and alternative crops, currants, lychees,
 and longans, Jan-8
 Nutrient data, chemical analyses for, Dec-12
 Nutrition
 dietary fiber, evaluating quality, Aug-15
 for teen mothers, Mar-17
 kids' diet survey, Apr-26
 low transferrin levels, Mar-27
 measuring folate status, Mar-14
 more healthful vegetable oil, Jun-14
 of military mothers, Apr-14
 phytonutrients for health, Mar-12, Jul-22

O-P-Q

Ornithogalum, colorful varieties, Dec-21
 Packaging, pest-proof, Mar-10
 Papaya enzyme is tenderizer, Feb-19
 Papayas, for export, Jan-5
 Particle films, repel plant pests, Nov-16
 Peach tree short life, rootstock resists, Oct-10
 Peanuts, South American landraces, Sep-10
 Pecans, routing scab, Aug-8
 Peptides, antifungal, for cotton, Jun-23
 Pest-proofing food packaging, Mar-10
 Pesticides
 fogger sprayer, Jul-14
 keeping on target, Jan-20
 nozzleless sprayer, Aug-8
 "seeing-eye" sprayer, Jul-22

Pfiesteria
 and farms, Feb-4
 composting helps control, May-20
 Phylloxera, finding key to resistance, Dec-19
 Phytase
 from transgenic alfalfa, Apr-25
 fungus aids production of, Apr-26
 Phytonutrients
 antioxidant in foods, Oct-17
 in foods for optimum health, Mar-12, Jul-22
 Pigeonpea, a summer legume, Feb-17
 Pinto, better bean cultivars, Jul-11
 Plant exploration
 a brief history, Sep-4
 for peanuts, Sep-10
 for wild crop relatives, Dec-4
 Plant proteins, protective, exploiting, May-8
 Plants send distress signals, Oct-20
 Poinsettias, free-branching, Dec-9
 Polymerase chain reaction to differentiate
 Chlamydia, Jun-7
 Poplars cope with salty water, Jun-19
 Potatoes
 built-in rot resistance, Jan-12
 pedigrees of 4,000, Aug-27
 vine silage as cattle feed, Oct-23
 Poultry
 ALV-J threatens chickens, Aug-24
 automated inspection, May-4
 bone disorders, May-6
 curbing coccidiosis carrier, Mar-27
 flu epidemic averted, Dec-16
 managing manure nutrients, Jun-12
 Preempt curbs Salmonella, Jun-27
 survey seeks microbes' origins, Feb-19
 turkey reproduction, Jul-4
 Precision farming
 retrofitting equipment, Nov-20
 with GPS, Jun-16
 Produce, anti-browning treatments, Feb-12
 Quality, measuring ripeness, Aug-23

R-S

Range
 reseeding with rodents, Jan-18
 using rainwater to reseed, Nov-21
 Rhizobacteria, deleterious, Oct-14
 Rice
 disease-resistant varieties, Aug-19
 tailored to consumers, Aug-18
 Rock grapes and wild crop relatives, Dec-4
 Safflower cuts fertilizer loss, Apr-17
Salmonella
 bacterial blend thwarts, Jun-27
 tracking source, Feb-19
 yeast may inhibit, Dec-18
 Scrapie, simple test for, Nov-6
 Seeds, glassy, in cold storage, Sep-12
 Sheep, simple, safe scrapie test, Nov-6
 Shipping fever, problem in livestock, Dec-20
 Sludge, beneficial to crops, safe, Nov-23
 Small farms, growing trees on, Nov-15
 Soil
 affects weather, Apr-4
 bioremediation with bacteria, Dec-21
 TDR measures moisture, Jan-7
 Southern Great Plains 97 Project, Apr-4

Soybeans
 Asian rust species, Jul-20
 hypernodulating gene, Jan-22
 multiple-use giant, May-12
 Spice fights coccidiosis carrier, Mar-27
 Spiders control insect pests, Aug-4
 St. John's-wort, from *Hypericum*, Apr-18
 Standard reference materials (SRMs) for
 chemical analyses, Dec-13
 Storage
 long-term, of seeds, Sep-12
 probe counts insect pests, Sep-20
 warehouse fumigation, Jul-21
 Strawberries, pest-free, hydroponic, Nov-10
 Sugarcane, borer-resistant strains, Aug-7
 Sunflower, mid-oleic hybrids, Jun-14
 Swine
 cryopreserved embryos, Mar-19
 porcine reproductive and respiratory
 syndrome, PRRS, Nov-23

T-U-V

Tall whitetop, goats feed on, Jul-18
 Tanning hides, reduced pollution from, Nov-12
 Technology transfer, at BRDC, Mar-4
 Test
 ELISA, for screwworm larvae, Sep-22
 for barley yellow dwarf virus, Jun-24
 for chemical residues, with cyanobacterium,
 Nov-14
 for *Chlamydia*, Jun-7
 for cucumber mosaic virus, Jun-27
 for tuberculosis in cattle, Sep-17
 genetic, for PRRS, Nov-23
 live-animal, for scrapie, Nov-6
 Transferrin, indicator of infection, Mar-27
 Turkey reproduction efficiency, Jul-4
 Ultraviolet light harmful to plants, Oct-11
 Vitamin C deters cataracts, Jan-23

W-Y-Z

Water spinach, *Ipomoea aquatica*, Jun-26
 Water
 buffering riparian areas, Feb-4
 farming affects quality, Jul-22
 in-stream wetland improves, Jun-18
 soil microbes help clean, Jan-23
 waste treating with heavy metal attractants,
 Jul-23
 Weather, soil plays a role, Apr-4
 Weeds
 aquatic, water spinach, Jun-26
 need a mix of controls, Apr-22
 tall whitetop, Jul-18
 Wetland, in-stream, constructed, Jun-18
 Wheat
 improved dough quality, Nov-4
 lines resist Hessian flies, Jan-23
 proteins impart texture, Aug-27
 resistant to barley yellow dwarf virus, Jun-24
 separating gluten, starch, Feb-17
 Wormwood extract fights malaria, Apr-18
 Yew synergizes insecticides, Nov-14
 Zinc in vegetarian diets, Mar-13
